Ready for a long-term relationship

IDANAS is a series of storage solutions and beds that's flexible enough to be used throughout your home.

But it's more than that. Made with genuine materials and crafted, solid-wood detailing, it's quality furniture with a look and touch that truly stands out.

Merging modern functionality with traditional style, IDANAS both helps simplify everyday life, and blends well with existing furniture.

While the wardrobes, chests of drawers and more work great on their own, they go elegantly together. With a wide range to choose from, simply tailor combinations to best suit your needs.

In other words: keep your bedroom, livingroom, hallway and whatever-room organised with the clever functions, durable materials and classic good looks of the IDANAS series.

IDANAS close up

Furniture to grow old with

The IDANAS products are created to look good by themselves, and go even better together. And since they are made with quality materials and an attention to detail to make them last for ages, it's a good thing they have a pleasantly timeless look and feel.

Quality materials and crafted details all the way

Take a closer peek at the finer points of the IDANAS series – the surfaces, the features, and the classic good looks.

No matter where you zoom in on an IDANAS piece there are pleasant discoveries to be made. The quality of the metal knobs, the finely milled edges, and the solid-wood detailing are just a few.

Bed frames

Aligned in design, materials and overall feel, individual IDANAS pieces placed in the same room help to visually tie the space together. This is especially noticeable in a bedroom, like here, where bed, cabinet and bedside table work together like a set to shape the mood of the room.

Bed frames with storage

Storage drawers under the bed is one of those simple-but-genius ideas that seem to come without drawbacks: you're making practical use of an unused space (an equivalent wardrobe would require extra space), you have easy access and overview, and perhaps best of all – no under-bed dust.

Chests of drawers

High and slender or wide and spacious? If it isn't specific space requirements that makes the choice for you, it's likely fine either way you go. They both swallow a mountain of stuff – and keep it in check, too – and do it while adding mood and character to the room.

Wardrobes

The balance of open and closed storage is key for any wardrobe arrangement that's used on a daily basis, none more so than a busy hallway. Combining a set of folding-door cabinets with an open wardrobe will do the trick – and make it look good, too.
